OVERTIME (in-game) PROCEDURES

1. Ties at the end of regulation will follow rules set by the National Federation.
 - a. The referee will designate which captain will call the coin toss. The team winning the coin toss shall choose a goal to defend or to kick-off first.
 - b. Two 15-minute sudden-victory overtime periods (golden goal) will be played. The first team to score wins. The teams will change goals at the end of the first 15-minute sudden-victory overtime period if necessary.
 - c. If a tie still exists after the two 15-minute sudden-victory overtime periods have been played in their entirety, the coaches, officials and team captains shall assemble at midfield to review the shootout procedure as outlined below.
 - d. Each coach will select any five players, including the goalkeeper, on or off the field (except those who have been disqualified) but who are on the roster to take penalty kicks. The referee will designate which captain will call the coin toss.
The team winning the coin toss has the choice of shooting first or second. The teams will alternate kickers for five penalty kicks. There is no follow-up on the kick. The defending team may change the goalkeeper prior to each penalty kick.
 - e. The team scoring the greater number of goals following the completion of the five rounds shall be the winner.
 - f. If the score is still tied, a sudden victory penalty kick shootout will occur. Each coach will select five different players than the first/previous five who already have kicked to take the kicks in a sudden-victory situation, wherein if one team scores and the other team does not in the same round, the game is ended without more kicks being taken.
 - g. If the score remains tied, the teams will continue the sudden-victory kick format with the coach selecting any five players to take the next set of five alternating kicks. If a tie still exists, repeat from procedure 1f.

UNIVERSAL TIE-BREAKER (for region qualifying)

1. The win-loss record(s) of the teams in league play shall determine seeding into the region playoffs. The league's administrators will determine win-loss records based on previously approved schedules. In the event of a tie, the tie shall be broken using the following procedures:
 2. Tie between two (2) teams
 - a. Head-to-head competition in league play among tied teams.
 - b. If the tie remains, each tied team shall receive one point for each game won in league ("region" in sports where crossovers are counted) play by their defeated opponents. The team with the most points will receive the highest seed.
 - c. If the tie remains, if applicable, the team that won the second scheduled league game between the tied teams will receive the higher seed.

EXCEPTION: Step 'C' is only to be used for seeding. A team shall not be eliminated from the league/region playoffs by the application of step 'C.'

If the tie is not broken in steps 'A' and 'B' and a team will be eliminated, a playoff game will be played following the end of the regular season. The NIAA Executive Director will select a neutral site for this contest.

3. Tie between three (3) or more teams

a. In all cases of ties involving more than two teams, as each team is removed from the tie, all other tied teams revert back to head-to-head to break the tie and the process continues.

b. Head-to-head competition in league play among tied teams.

Example of Multiple Team Ties:

i. Games

Team A defeated Team B twice and split with Team C
Team B lost to Team A twice but defeated Team C twice
Team C lost to Team B twice and split with Team A

ii. Mini Standings

Team A = 3-1
Team B = 2-2
Team C = 1-3

iii. Results

Team A is awarded highest seed
Team B is awarded second highest seed because of its head-to-head record against Team C

c. Goal Differential

If the tie remains, tied teams will compare their goal differential with each other in league play. Each team will total their margin of victory against the other tied teams with marginal goals being the difference in the scores of a contest. Winning teams will add the margin of goals while losing teams will subtract the margin of goals. No more than five (5) goals will be added or subtracted in any league contest. The team with the highest number of marginal goals will receive the highest seed. If there is a tie for highest marginal goals, then those tied teams shall revert back to the respective tie-breaking procedure based on the number of teams remaining in the tie.

Example of goal differential (5 maximum) system:

i. Games

Team A defeats Team B, 5-2
Team B defeats Team C, 3-0
Team C ties Team A, 1-1.

ii. Goal Differential

Marginal goals for Team A: +3
Marginal goals for Team B: 0
Marginal goals for Team C: -3

iii. Results

Team A is awarded highest seed

Team B is awarded second highest seed because of the head-to-head record against Team C

d. If the tie remains, each tied team shall receive one point for each game won in league ("region" in sports where crossovers are counted) play by their defeated opponents. The team with the most points will receive the highest seed.

e. If a tie still exists and all tied teams, by virtue of the number of teams accepted into the league/region playoffs, are guaranteed entrance into the tournament, then a coin toss will be used to determine seeding. The winner of any coin flip will receive the highest seed. Remaining teams would revert back to head-to-head competition based on the number of teams remaining in the tie.

f. If a tie still exists and one or more of the tied teams, by virtue of the number of teams accepted into the league/region playoffs, must be eliminated, a playoff game(s) will be played following the end of the regular season. The NIAA Executive Director will select a neutral site for the contest.

Note: In the event of a multiple team tie as outlined in step 'F,' the tied teams will draw numbers. The team drawing #1 will have a bye and will play the winner of the first playoff game. All games will be scheduled as soon as possible. Seeding will be established by the results of the playoff.
